The price movement **since April 1st 2026** till date was as follows

The week traded almost flat as the Iran US situation stays unresolved. Traders / Speculators are unable to make any projections as the demand from the market is stable and spread out.

The demand from the food and oil drilling sectors is spread out till now, with no spike in the demand pattern .

Shipments from India to almost all sectors have been effected as vessels are unable to meet their schedules. One can expect some delays in the sailing and the delivery times as shipping lines are still working on the sailing plans which were disrupted due to the war. The inventory situation also is very poor as container availability is restricted.

Nothing can be forecasted about the Guar market for sure. The market is controlled by speculators/traders.
