SOUTHWEST MONSOON UPDATES

The Indian Agriculture is mostly dependent on the Southwest Monsoon rains which seeps across the country from May/June to Sept/Oct. Several natural factors/phenomenon effect the progress and spread on the monsoon rains across the Indian peninsula.

IMD declares that the Southwest Monsoons have set in over Kerala

The Indian Meteorological Department (IMD) has released a press release on May 24th

As per them

The Southwest Monsoon has set in over Kerala today, the 24th May, 2025, against the normal date of 1st June.

Kerala is the southernmost tip of the Indian peninsula. The Southwest Monsoons enters via the southern most tip of India and gradually progresses to the northern parts. If the progress across the peninsula is normal the monsoons reaches the Guar growing areas around early July

The detailed report can be read at the following link
