GUAR MARKET SNAPSHOT : Week of Sept 7th 2026

As reported by the Oil industry.. *Houthi strikes on Saudi Arabia's oil infrastructure have alerted the oil markets to the possibility of seeing even less Middle Eastern supply than before, with potential damage to the East-West pipeline jeopardizing 3-4 million b/d of Saudi crude exports. Whilst the meeting of Gulf foreign ministers over the weekend has poured some cold water on runaway crude prices current prices is by no means the limit if the status quo gets protracted...* Brent Crude is trading at around US\$104/- up from around US\$97/- at the beginning of the week. Likewise WTI is trading at around US\$100/- up from around US\$92/- for the corresponding period.

The Baker Hughes Rig Count data is as follows

Rigs in the USA : + 52 as compared to Sept 12th 2025
Rigs in Canada : + 21 as compared to Sept 12th 2025
International : + 26 as compared to August 2025

Crop Guesstimate

2024 Crop : 8 ~ 8.5 Million Bags (800,000 ~ 850,000 MT of Guar Seed)

2025 Crop : 8.5 ~ 9.0 Million Bags (850,000 ~ 900,000 MT of Guar Seed)

The **exports from India of Guar Gum** were as follows

Current Year exports	Quantity in MT*
April 2025 – March 2026	245,920
April 2026 – June 2026	70,854

**We are mentioning here only the exports of Guar Gum Powder. The quantity exported in the form of splits and Guar meal is additional*

The Guar Split **spot price movement in Rs/Kg** during Sept 7th to Sept 12th (2026 v/s 2025 v/s 2024) was as follows

The average Guar Split Price in Rs/Kg during Sept 7th to Sept 12th was Rs.130

Guar Crop Data (All figures in Hectares)

State	Average Area (no of years)	Area in 2025	Target	Sowing till date	Date of update
Rajasthan	2,747,000 (5yrs)	2,482,000	2,550,000	2,234,760	25/08/2026
Gujarat	87,881 (3 yrs)	73,794	87,881	50,392	07/09/2026

* Statistical data of two other Guar growing states of Punjab and Haryana are not available

The sowing window has come to an end. As per the Government data, the crop sowing in Rajasthan the main producer of Guar is now around 88 %. The sowing in Gujarat is just about 60% as compared to the target.

After the initial round of rain there was no significant rainfall activity till now. As a result the other areas have also slipped into the red (deficient rainfall) category.

The resultant impact of the lack of rainfall can be seen as the speculators and traders have become active and the Guar Split spot market rates are fluctuating on the higher side. The prices are more trader/speculator driven rather than any increase or spurt in the demand pattern.

The demand from the food and oil drilling sectors is spread out till now, with no spike in the demand pattern .

Shipments from India to almost all sectors have been effected as vessels of all shipping lines are unable to meet their schedules. One can expect some delays in the sailing and the delivery times as shipping lines are still working on the sailing plans which were disrupted due to the war. The inventory situation also is very poor as container availability is restricted. The freight continues on the higher side.

Nothing can be forecasted about the Guar market for sure. The market is controlled by speculators/traders.

We will keep you updated regarding the market situation as it develops. Please advise us your requirements so that we can calculate and advise you our best rates based on your indication regarding the Quantity, Quality and shipment period. Any queries or inputs required, please feel free to contact us. We will try to suggest the best options based on our experience and the prevailing market situation.

Make an informed purchase decision
