GUAR MARKET SNAPSHOT : Week of June 15th, 2026

As reported by the Oil industry *The signing of the US-Iran ceasefire agreement might provide a 60-day evacuation window for all crude tankers stuck since March in the Gulf; With the Israel-Lebanon issue hanging by a thread, Iran has tried to reassert its authority over Hormuz in the first days since Trump's signing of the MoU, yet the oil markets still anticipate the much-sought reopening to happen sooner or later.. ..*

Brent Crude closed at around US\$80/- down from US\$84/- at the beginning of the week. Likewise WTI also closed at around US\$78/- down from US\$81/- for the corresponding period.

Guar Crop Data (All figures in Hectares)

State	Average Area (no of years)	Area in 2025	Target	Sowing till date	Date of update
Rajasthan	2,747,000 (5yrs)	2,482,000	2,550,000	77,000	16/06/2026
Gujarat	87,881 (3 yrs)	73,794	87,881	114	15/06/2026

* Statistical data of two other Guar growing states of Punjab and Haryana are not available

There is some sowing but it is mainly in areas which have access to irrigation water in extreme North West Rajasthan and Gujarat

This week the world with a sigh of relief saw the signing of the deal between the US and Iran. With the reported passage of vessels from Hormuz having started, it is expected that the shipment situation will hopefully stabilise but it is going to take some time.

On the other hand the Monsoons after an initial surge has shown no progress towards the Guar belt. As can be seen from the picture above the monsoons coverage area is pretty much the same.

The speculators and traders were largely inactive and the Guar rates were practically flat for the entire week as can be seen from the graph.

The demand from the food and oil drilling sectors is spread out till now, with no spike in the demand pattern .

Shipments from India to almost all sectors have been effected as vessels of all shipping lines are unable to meet their schedules. One can expect some delays in the sailing and the delivery times as shipping lines are still working on the sailing plans which were disrupted due to the war. The inventory situation also is very poor as container availability is restricted.

Nothing can be forecasted about the Guar market for sure. The market is controlled by speculators/traders.

We will keep you updated regarding the market situation as it develops. Please advise us your requirements so that we can calculate and advise you our best rates based on your indication regarding the Quantity, Quality and shipment period.
